****These metonic Solar & Lunar eclipses are exact repeats of 2004 on virtually the same dates. Check back and see how events and your plans in 2023 are an extension of that time.**

A New Moon in a House in your chart represents a potential new start in that area of your life. A Full Moon represents a high tide or fullness in the affairs of the pair of Houses it triggers in your chart. The high energy of an Eclipse in a House in your chart demands attention for several months, especially if on or near your birthday because you will re-evaluate your purpose and direction.
